PROFESSIONAL SUMMARY

I am a dedicated and results-driven **Software Engineer** with hands-on experience in backend development, mobile app development, and software engineering principles. With a strong foundation in **Java, Spring Boot, ASP.NET, and Flutter**, I excel at building scalable and efficient solutions. Throughout my academic journey at **Adventist University of Central Africa**, I developed expertise in full-stack development, collaborating on various projects to enhance both my technical and problem-solving skills. Passionate about learning new technologies, I am committed to delivering high-quality software solutions and continuously improving my skills in a fast-paced environment.

EMPLOYMENT HISTORY

Jan. 2022 - Dec. 2024
Kigali city, Rwanda

Software Engineer Student, Adventist University Of Central Africa

As a **Software Engineering student** at **Adventist University of Central Africa**, I gained practical skills in **Java, Spring Boot, Software Testing and ASP.NET** for backend development. I also developed expertise in **mobile development using Flutter**, building cross-platform apps and gaining a solid understanding of software engineering principles.

Oct. 2022 - Dec. 2023
Remote, Rwanda

Full Stack Developer, Andela

As a **Trainee Full Stack Developer** at **Andela**, I gained hands-on experience with **HTML, CSS, React.js, Node.js, and MongoDB**, developing dynamic user interfaces and building RESTful APIs. I collaborated with mentors and peers, improving my skills in both frontend and backend development.

Oct. 2022 - Oct. 2023
remote

Full Stack Developer , Coursera

I was also taking online courses on Coursera, That I explored web development technologies such as **HTML, CSS, Javascript and Django**. I contributed to web-based projects, gaining a foundational

understanding
of Git and GitHub, Front-end and backend development .

May. 2018 – Jan. 2019
